

Brill, S. and C. McKeen (eds) (forthcoming), *The Routledge Handbook on Women and Ancient Greek Philosophy*, Routledge.

This volume collects over 40 original essays on the treatment of women as knowers in ancient Greek literature and philosophy, the manuscript tradition, and contemporary receptions of these texts. It handles texts spanning the poetry of Sappho, Hesiod and Homer; Greek tragedy; the Hippocratic corpus; the sophistic tradition; Plato, Platonism, and Neo-Platonism; Aristotle, the movements of Stoicism and Cynicism, and the reception of ancient Greek from late antiquity to the present day.
