

**Garrido González, E. (1986) *La mujer en el mundo antiguo: actas de las V Jornadas de Investigación Interdisciplinaria*, Seminario de Estudios de la Mujer, Servicio de Publicaciones de la Universidad Autónoma de Madrid.**

This is the first edited volume in Spain focused on the study of gender in the ancient world. It comprises contributions from philologists, historians, and archaeologists. The publication was linked to the then “Research Seminar on Studies on Women”, which began in 1979 at Universidad Autónoma de Madrid as the germ of today’s Instituto Universitario de Estudios sobre la Mujer (IUEM), officially founded in 1993.
